

Washington State Birth Index 1907-1919

Overview

This list was compiled by searching the Index as provided by Ancestry.com on 12/23/2005. I searched for counties in Washington where there were known Hamilton relatives in this era. Many of the entries below are for descendants of Supplina and Jane Hamilton or Supplina's brother William M. Hamilton.

- Glen Hamilton. Everett, Wa.

Description

This index contains the names of those children born between 1 July 1907 and 1919. The father's full name, the mother's maiden name (if known), the child's given names, the birth date, the birth location, the certificate number, the sex, and race may also appear. The child's name may not be known and "unnamed" will appear in the place of a name. For information on how to order a copy of a birth certificate, visit the Washington State Department of Health website.

The mandatory recording of births and deaths on a state level began 1 July 1907. Although the keeping of birth records at a state level officially began on this date, not all counties may have reformed to this new law right away. Therefore, it is important to check for birth records at a county level if they are not found at a state level. From 1891 to 1907 birth and death registers were kept on a county level. Prior to 1891, Washington had no legislative provision for the recording of births and deaths. To obtain post-1907 vital records, specific information is required to initiate a search. For birth records, the following is needed: (1) name at time of birth or adoption, (2) date and place of birth, (3) father's full name, and (4) mother's full maiden name.
